HertzCloth™
High Conductivity and All Natural Materials

We get asked all the time for a good shielding fabric which:
- Is machine washable
- Safe for direct skin contact
- Highly conductive and good for grounding
- Good for shielding radio waves
- Made with all natural materials
- Reasonable cost

Finding all these qualities in one material is no small task, until now. HertzCloth is all this and more! Made with pure cotton and stainless steel fibers, that’s it. No flame retardant, no colorings. One side is primarily metal (gray side) and the other side is primarily cotton (white side). Cuts and sews with ordinary scissors and thread. Excellent choice for clothing, bedding, drapes, furniture covers and more.

Resistivity: 300-400 Ohms per square
Shielding performance: >30 dB over common RF frequencies.
30% stainless steel, 70% cotton
180 g/m²
Thickness: 0.3 mm
Width: 59 inch

Care:
1) Softly wash by hand, with neutral detergent (Don’t use any strongly alkaline detergent such as washing powder).
2) Water temperature below 40 centigrade degrees.
3) No bleach, do not use detergent with bleach ingredients.
4) Do not wring, do not hang in blazing sun for a long time, and pick up promptly from the water to dry.

HertzCloth™ (Cat. #1216)
