SILVERELL® FABRIC
Soft and Stretchy as a Cotton T-Shirt

Take Rayon and Silver. Make a super soft yarn, then knit into a beautifully soft fabric which is a delight to wear. That’s Silverell! Because it’s knitted, it has a nice stretch in one direction. Because it’s Silver it has good conductivity, anti-static properties, and shielding (and odor control). And because it’s cotton, it’s comfortable and washable. A great material for making garments and bedding. >90% RF attenuation from 20 MHz to 8 GHz. Machine washable. Fabric will pill if abraded. Light gray color. **62 inch wide.**

Material: 16% Silver/nylon + 84% Rayon
Construction: Jersey knit
Yarn count: Dtex44/12
Weight: 134 g/m²
Surface resistivity: <5 Ohm per sq
Shielding effectiveness: >20 dB
RoHS compliant

**Silverell Fabric (Cat. #1224)**

**Washing Instructions:**
Machine washable, warm, delicate cycle
DO NOT USE BLEACH
Tumble dry, cool. Do not iron; Do not dry clean!
