

CELLPHONE SHIELDS

SKIN-BLOK™

Adhesive, Transparent Microwave Shielding

Tired of clunky cellphone shields that just don't fit? Skin-Blok is a super thin shielding film that won't alter the look of your phone. Incorporates a high performance shielding mesh material providing 40+ dB of attenuation with the simplicity of a peel and stick film. Can be used on any type of phone: flip style, swivel, bar style, PDA's or just about any wireless device. Just trim to size for a custom fit, peel off the backing and stick it in place. You can see the phone, press the keys, hang up, fold up, recharge and operate your phone normally. Does not prevent the optional use of hands-free. Helps protect the phone from scratches and wear and tear, too. **You get 2 pieces: 2.75 x 4 inches each.** Place on the side of the phone which faces your head. Remember, the phone emits radiation not just from the antenna! Not for phones with touch screens.
Skin-Blok (Cat. #D244) \$11.95

For Larger Jobs:

Want a wider format? Cover your laptop screens, windows, micro-wave oven door, or other wireless devices. Same material, but 11 inches wide. Sold by the linear foot. Specify length. (Note: Moiré patterns may occur with some digital displays due to mesh size)
Skin-Blok Wide (Cat. #D245) \$24.95 per lin foot.

NO CELLPHONES DECAL

Clearly Gets the Idea Across

Want to let people know that cell phones cannot be used in certain areas without an embarrassing confrontation? These decals are suitable for putting up in schools, restaurants, theaters, stores, taxi cabs, busses, trains, hospitals, offices, homes or *any other place that's appropriate for a cellphone-free zone.* High quality color decals measure

4" by 4". Nice strong adhesive, simply peel and stick. **(Cat. #D609) \$4.00**

CAUTION / WARNING SIGNS

High Visibility Hazard Warning Signage

Sturdy Aluminum signs get your message across, indoors or out. Warn children, visitors, neighbors. Economical enough to use as a protest. Yellow and black on white background for easy recognition. These are the same signs used by the authorities.

CAUTION Sign is 9 x12 x.032 inch thick

WARNING Sign is 7 x7 x.032 inch thick with a 1/8" hole in each corner

Caution Sign (Cat. #D608) \$17.95

Warning Sign (Cat. #D607) \$19.95

CELL PHONES PROHIBITED SIGN

High density, .055-gauge heavy weight, outdoor-grade polyethylene signs, a full 10" x 14". Gets the message across loud and clear!

(Cat. #D715) \$14.95
