

# COMPUTER SHIELDING

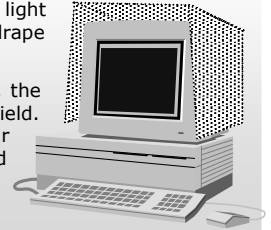

**Important Notice:** Computers and TVs produce at least two types of EMF radiation: Electric fields and Magnetic fields. While scientific research to determine which of these two types is of greater concern is not yet conclusive, we do know that people can be sensitive to either. If you are not sure which field type you are most concerned about, you may want to consider using a combination approach. You can use just about any electric shielding device in combination with any magnetic shield for maximum protection. Any of these shields will work equally well with a monitor or TV, as long as the proper size is selected.

## COMPUTER CAGE *E-Field Shield for the Back & Sides of the Monitor!*

To get complete shielding of the electric fields from your computer monitor, you need to also shield the sides and back. The Computer Cage is a 4' x 5' fine mesh fabric that is highly conductive. The fine mesh allows for easy air circulation and light weight while the conductivity provides excellent shielding. Simply drape the material over your monitor and attach the ground cord.

Combined with the Spectrum Shield (for the front of the monitor), the Computer Cage completely surrounds the monitor in a protective shield. Especially important in situations where people are positioned near the back or side of computer monitors. Can be used on TVs and microwave ovens too! Includes 18" grounding cord.

**(Cat. #D258) ..... \$89.95**

## REMOTE KEYBOARD *Get That Laptop Off Your Lap!*

Laptops are especially difficult to shield without adding a lot of bulk. Dramatically reduce EMF exposure to your laptop or PC by simply increasing the distance. This

Windows compatible

104 key beige keyboard has the classic layout with number pad, all the function keys, scroll. Best of all: 9 ft cable connects easily through the USB port. Does not have mouse pad. A separate mouse or keyboard shortcuts can be used.

**(Cat. #D248) ..... \$19.95**

### Magnetic Field Reduction for a Typical Laptop

mG readings		Off	AC Power	Battery Power
Hands	w/o remote	0	3.0	5.0
	with remote	0	0.2	0.1
	% reduction	0	<b>93%</b>	<b>98%</b>
Chest	w/o remote	0	0.4	5.2
	with remote	0	0	0.1
	% reduction	0	<b>99+%</b>	<b>98%</b>
Face	w/o remote	0	0.4	5.1
	with remote	0	0	0.1

## DELUXE CENTER-MOUNT ANTI-RADIATION SCREEN

*For CRT, LCD, or Laptop monitors*

The safe and easy way to enhance computer workplace comfort and productivity with maximum electric field radiation reduction. Light weight and very effective shielding. Unique center mount bracket allows for extra stability. Installs in seconds without tools. Lifts up for easy cleaning. Fully adjustable for optimum positioning on monitor. Made in USA, includes ground cord. Select Gray or Black frame to match your monitor.

- ❖ Glare eliminated 99.6%, AOA approved.
- ❖ Blocks up to 99.999% ELF/VLF E-field Radiation
- ❖ Reduces UVA/UVB Radiation
- ❖ Eliminates Static 100%
- ❖ Contrast increased up to 300%
- ❖ Neutral tint, optically coated glass for true color
- ❖ Annealed glass for extra strength
- ❖ Has conductive coating and includes grounding cord

Fits Monitors	Frame Size (WxH)	Price	Gray	Black
12 to 15 inch	12.75 x 9.75 inch	\$46.95	D258G-15	-
16/17 inch	14.25 x 11 inch	\$72.95	D258G-17	D258B-17
19 to 21 inch	17.5 x 13.75 inch	\$99.95	D258G-21	D258B-21
