

FABRIC CONNECTORS & GROUNDS

BANANA TO GATOR CORD

You get 3 cords (1 each: red, black, and yellow) with banana plugs on one end and alligator clips on the other. Use them as ground cords, in meters, test equipment, etc. 36" long. (Cat. #D298-C) \$2.79

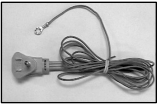

GROUNDING CORDS

Many styles to Choose From

Insulated copper wire with standard alligator clips on each end. Connect it to computer monitor shields, conductive fabrics or plastics, or conductive painted surfaces to ground. Also great as an extension for grounding wrist straps. **18-inch (Cat. #D295-18) \$2.00**
48-inch (Cat. #D295) \$6.00

72" 3-prong plug one end and alligator clip on other (Cat. #D295-3) .. \$6.00

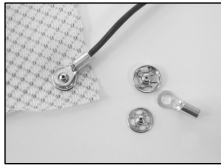

72" long, 3-prong plug one end and ring terminal on other (Cat. #D295-3-Ring) \$6.00

Alligator clip on one end, Ground Clamp on other end (great for grounding to pipes ≤1" diameter): (Cat. #D295-gc) \$6.00

SNAP/RING TERMINAL COMBINATION

Attaches Ground Cords to Fabric/ Plastic

Want a tidy and good looking way to attach a ground cord to a conductive fabric or plastic shield? This simple hardware combination does the trick in style. First, crimp the provided ring terminal to your ground wire. Next, punch a small hole in your conductive sheet. Pass the stud of the snap through this hole and through the ring terminal. Finally, apply the other half of the snap. Makes good contact and you can move it or remove it as needed. Snap is nickel plated for excellent corrosion resistance and is washable. Ground wire not included.

Snap/Ring Terminal (Cat. #D294) ... \$2

GROUND CLAMP

Permits secure connection between ground wire and ground rod or pipe. Constructed from bronze alloy and stainless-steel screws for excellent weather resistance and even UL listed for direct burial. Fits nicely over pipes/rods 1/2" - 1" in diameter. Accommodates wire 10 Sol.-2 Str. Easy to install.

(Cat. #D291-C) \$4.95

ALLIGATOR CLIPS

Make your own grounding cords!

Simply add copper wire of the desired length. These are nickel plated steel for strength and corrosion resistance. 2 inches long overall. (Cat. #D298) \$2.00/pair

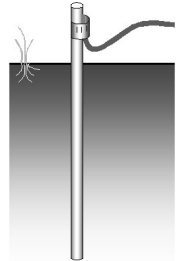

Heavy Duty 50A Clamp

(Cat. #D296) \$4.95

GROUND STAKE KIT

If you don't like the idea of grounding your shielding paint, fabric or plastic through your building's electrical system, you can use this simple and durable grounding stake to connect directly to the Earth. Sturdy, rust resistant, 36 inch long aluminum stake is ready to drive into the soil. Complete with exterior grade heavy gauge ground cord (with no terminal) and stake-to-cord connector.

Note: if soil is rocky, you may need to dig a hole first with appropriate tools. Be careful when selecting location... do not place near buried wires or pipes.

Ground Stake Kit:

25 ft cable (Cat. #D291-25) \$19.95
50 ft cable (Cat. #D291-50) \$29.95
100ft cable (Cat. #D291-100) \$39.95
