

PERSONAL SHIELDING

BALACLAVA SHIELD

Head and Neck Protection

Very comfortable radio-frequency shielding for the head and thyroid region. Medical grade, silver coated stretchy fabric (**93% Silverized nylon, 7% LYCRA®**) provides very good microwave shielding. Washable and very soft. Can be worn many ways: covering nose/mouth or not. Covering neck or not. Size of eye opening can be adjusted to your preference. Can even be rolled into a beanie shape. Lightweight, stretchy, anti-bacterial fabric is the key. Tested for 50 washings with no deterioration in performance. One size fits all. Made in USA. Dark gray color.

Balaclava Shield
(Cat. #D219) \$59.95

SHIELDED CAP

Smart & Subtle

Protect your brain from RF (radiofrequency) pollution with this handsome base-ball style hat. Specially de-signed to shield the head from frequencies from below AM through microwave, including cellular phone frequencies. Lined with sophisticated NaturaShield fabric woven from cotton with an ultra-thin Silver/Copper core thread. This gives this unique fabric a truly comfortable, natural feel and the durability and washability of cotton, but with exceptional reflective characteristics. Research links RF radiation with behavioral and cellular disturbances. Many people can actually sense the differences in the levels of "mind noise" from RF radiation. Provide your brain a quiet place without interference to your mental processes from RF radiation. Washable, Tan color. Adjustment strap means one size fits all. Union made in USA. (Cat. #D210) \$29.95

RADIATION BLOCKING HEADBAND

99.9% Pure Silver,
Comfortable Stretch

The perfect way to shield your ears. Comfortable enough to sleep in, and stylish enough to wear in public. High shielding performance silver stretch fabric gives excellent radiofrequency and microwave shielding. Made of double thickness 2" wide **93% Silverized nylon, 7% LYCRA®**, and tested for 50 washings with no deterioration in performance. Ideal for cellphone shielding or any other activity when you need to shield your ears and forehead. Thin enough to fit under a hat or helmet. Durable and unwrinkle-able, washable too (no bleach). Silver provides anti-bacterial properties and suppresses odor. Folds small for easy transport. Pretty Silver color.

(Cat. #D218) \$24.95

SILVERBUDDY

Antimicrobial Silver Wipe

Germs are everywhere! When you have daily contact with people and don't have time to wash your hands frequently, you can still protect yourself from germs.

Teachers in contact with many children and people who handle currency as part of their daily job functions should wash their hands often. Shopping carts, runny noses, petting zoos, and public rest rooms are some of the many other common encounters with germ covered surfaces.

Use wet or dry. SilverBuddy towels kill disease causing germs. Use between hand washings to take advantage of the anti-bacterial properties of Silver to reduce bacteria counts. Convenient 12x12 inch wipe can be used over and over. Simply wipe your hands thoroughly! Easy to carry in pocket or purse. Easy to pack in a lunchbox, briefcase, glovebox, or picnic basket.

SilverBuddy can be machine washed many times (cold, delicate cycle and line dried) with no reduction in effectiveness. Also useful as a microwave shield or minor wound/ sunburn dressing. Very unique!
(Cat. #D1223) \$9.95
