

# PERSONAL SHIELDING

## BIO-GROUNDER

*Improve Driving Alertness & Reduce Stress*

When we tested it, we were amazed at how well this device does what it claims. Place this simple pad on your car seat and attach the provided ground wire to any portion of the metal seat frame. The Bio-Grounder drains away body voltage which otherwise builds up (90 mV or more in some tests!) This body voltage has been shown to add tension to the nervous system, increase heart rate and accelerate fatigue. Bio-Grounder may reduce symptoms electrically sensitive individuals typically experience in vehicles. Drivers report a calm increased alertness, less fatigue, and less tendency for road rage! Can be used in any car, truck riding lawn mower, bus plane or just about any motorized vehicle. One size fits all. Get one for each passenger.

**(Cat. #D213) ..... \$29.95**

## VEHICLE GROUND STRAP

*Maintains Electrical Connection to Ground*

Like a Grounding Wrist Strap for your car! No one likes that awful shock when getting out of a car or truck. That shock is the discharge of "chassis voltage" built up as the

vehicle moves along the highway. What you might not know is that in addition to causing symptoms of high body voltage in the driver and passengers (such as fatigue, irritability, drowsiness, and motion sickness), this type of discharge causes serious injury when it occurs at the gas pump. Every year, this seemingly innocent spark occurs at the wrong place and the wrong time: igniting gasoline vapors while fueling the vehicle. The Vehicle Ground Strap can be used on any car or truck. Simply affix the strap's clamp to the chassis of the vehicle and allow the conductive strap to dangle to the ground. Safe, durable and unaffected by the weather. Great gift too. 18" long, 1 yr wty. **(Cat. #D214) ..... \$19.95**

## PAINLESS STATIC DISCHARGER

*No Sticker Shock When You Are Sick of Shock*

Eliminate car, computer, TV, wool sweater, and nylon stocking static shocks easily, safely and quickly !!!

Instead of zapping your fingers, simply hold the Painless Static Discharger in your hand. Touch it to any grounded metal object like a car, desk, water pipe, or bronze statue. Display indicates when discharging has occurred. Clears up the static hazard within 0.2 seconds! Streamlined design, comfortable to hold. Includes keychain ring and completely discrete, only 2 inches long. Good up to 25,000V! Non-electric, no battery needed!

**Painless Static Discharger (Cat. #D731) ..... \$8.95**

## EMF FACE SHIELD KIT

*Shields Eyes and Entire Face*

If your eyes or face burn when you use your TV or computer, now you can shield irritating electric field and RF with this simple shield.

Adjustable padded head strap and replaceable visor which can flip up. Comfortable for extended wear. Uses ClearShield plastic film as the shielding component, supplied as a stock (10x24") rectangle. Includes template for trimming Clear-Shield for proper fit. Order additional ClearShield for replacement visors.

**EMF Face Shield (Cat. #D260) ... \$44.95**

**ClearShield Stock (10x24") Rectangle (Cat. #D1212) ..... \$29.95**  
*for replacement visors*
