

# LOW EMF DEVICES

## FOAMING SOAP PUMP

*Rich Foam, Saves Money*

Enjoy the luxury of thick soapy foam with a single pump on the nozzle. Completely manual (uses no electricity nor batteries). Tired of the kids wasting soap? Here is the best part: uses any liquid soap and you dilute the soap with 3 parts water! So it uses less soap. Saves money and is better for the environment. Use it for shampoo, hand soap, disinfecting soap, pet wash, dish soap, etc. Great for shaving too. Even make your own soap/fragrance combinations. Very attractive for kitchen or bath. Holds 5 oz. Unusual combination of thrift *and* luxury!! This is not really an EMF reducing item, but we liked it so much we thought we should include it.

**Foaming Soap Pump (Cat. #D741) ..... \$11.95**

## SUPER LOUD WIND-UP ALARM CLOCK

- Loud extended alarm
- Brass bezel, luminous hands
- Large easy-to-read numbers
- No batteries required, **zero EMF**
- Runs up to 30 hours on single wind

**Super Loud Wind-Up Alarm Clock (Cat. #D743) ... \$10.99**

## NON-ELECTRIC MECHANICAL DOORBELL

Transformers for conventional doorbells operate 24 hours per day producing significant fields, whether you use your doorbell or not.

Rip it out and replace it with one of these handsome (brass plated steel) zero EMF doorbells full of character and charm. Completely mechanical, it rings with clear, crisp tone that can be heard throughout the house... and uses no wires, batteries, or electricity!

3" diameter bell attaches to the inside of the door, 3¾" tall by 1¾" wide turn-key (with plate) fastens to the outside. Designed for 1¾" to 2¼" thickness doors. **Mechanical Doorbell (Cat. #D770) ..... \$39.95**

## SAFE TIME *Low EMF Alarm Clock*

Plug in alarm clocks are a sure source of high electromagnetic fields... and they are often right near your head for 8 hours a night while sleeping!

SafeTime is a big value in a small package. Low EMF alarm clock offers oversized numbers for easy visibility, time, alarm, and snooze features. Pleasant sounding alarm. Lightweight and perfect for bedside, desk, or travel.

2-7/8"W x 2-3/4"H. Batteries included. **Safe-Time (Cat. #D740) ..... \$6.95**
