

LOW EMF DEVICES

SHIELDED APPLIANCE CORDS

Typical lamp cords, appliance cords, even the cord to your alarm clock emit strong electric fields *even if the appliance is turned off*. Replacing the cord with a shielded cord eliminates this source of electric field. Replacement is simple, but does require basic knowledge of wiring. Recycled shielded cords, rated for 10 amps, 6 ft long. 3-prong plug on one end, other end cut. Internal metallic shielding. Black vinyl.

DEGAUSSING COIL

*Source of Strong AC Magnetic Fields
Removes Magnetic Fields from Steel*

Want to remove the magnetic fields from your small steel objects? Want to degauss your TV, computer monitor or erase magnetic media like credit card strips, diskettes and audio tapes? This degaussing coil can do all that and more! To demagnetize something ferro-electromagnetic you expose it to a strong AC magnetic field that slowly decreases. The idea is to magnetize the object completely in one direction, then slightly less in the opposite direction, then repeat with ever smaller decrements until only a very small residual magnetic field remains. Simply plug in this degaussing coil and hold it near the object you wish to treat. Then slowly back away until your are about 3 - 4 feet away from the object. It's that simple! **Be careful** when you handle this demagnetizer, don't leave it on more than absolutely necessary, and do not expose yourself unnecessarily. The magnetic field emitted can be well into the 17 Gauss range. A full 6" in diameter coil. 115VAC, UL approved. Made in USA.

(Cat. #D730) \$29.95

NO-EMF WATCH

Worth the Price on Style Alone!

You could pay hundreds to get the look & features of this high-end watch by Croton. Now you can enjoy the same style for much less! This watch has a classically-designed case layered in genuine 23K gold & a patterned dial accented by six fiery diamonds. Also features a reliable time keeping Citizen Miyota NO EMF automatic movement that never needs winding or batteries. Has a second hand, magnified date window & adjustable link bracelet. Water resistant to 166'. Limited lifetime warranty.

Women's No-EMF Watch (Cat. #D781) \$119.95

Men's No-EMF Watch (Cat. #D782) \$119.95

BEST NON-ELECTRIC TOOTHBRUSH

Unique Deep V-groove Bristles For Maximum Performance

Ask your dentist: the oral bacteria which cause dental problems concentrate where the tooth meets the gumline. If you can't position the toothbrush bristles on your teeth at the gumline, then the bacteria build up *despite your efforts*, and plaque, gingivitis and other

periodontal diseases occur. The simple Deep V-Groove design of this manual brush's bristles allows anyone to correctly position the bristles at a 45° angle, *automatically* assuring the most effective means of plaque control! 0.008" Soft DuPont Tynex® Nylon monofilament bristles, 5 Row 53 tuft, end-rounded polished bristles. *We think you'll agree: this is the easiest, most-effective toothbrush we've seen.* Get rid of that electric toothbrush!

Best Non-Electric Toothbrush (Cat. #D717) \$2.95
